

LEAN STRATEGY PROGRAM

完全 KANZEN INSTITUTE
Towards Perfection

Background

Lean is a philosophy, a way of life which espouses “**Doing More and More with Less and Less**”. The **lean paradigm** focuses on making the **most effective use of available resources** (man, machine, material, information) and this is measured through improvement in the parameters of **Productivity, Quality, Cost, Delivery, Safety and Morale**.

In any organization, an initiative like Lean will succeed only through the drive of the entrepreneur or the top executive. This program is designed for Entrepreneurs / CXOs/ Business Heads to make them aware about the Power of Lean in improving business performance and how lean is implemented using kaizen approach. This will enable them to deploy lean as a strategic initiative to gain competitive advantage.

About KIAP

KANZEN Institute Asia-Pacific (KIAP) is a pioneer in India in supporting organizations in their journey towards perfection. KIAP is promoted by **Dr. S. Gondhalekar** (popularly known as Dr.G) and **Mr. S. Durai Rajan** - both direct disciples of legendary Kaizen Sensei Masaaki Imai. KIAP has guided over 200 organizations across manufacturing & service sectors in significantly improving operational performance.

How industries have gained through KIAP's Lean intervention

South India's leading commercial refrigerator manufacturer

- Doubling of production volume with same facility
- Lead time WIP slashed from 10 days to < 48 hours

One facility of India's largest edible oil processor

- 33% increase in productivity in filling line
- 50% reduction in packing loss

India's leading pump supplier

- 50% increase in pump assembly output
- Inventory of components reduced significantly

India's No.1 Brand in foods

- Significant customer complain reduction & defective reduction
- Bringing in Culture of Continual Improvement

Pioneer in prawn feeds

- Significant increase in Plant output
- Improvement in workplace through dust, spill & leak-free environment

Global engineering giant

- 5S & world class manufacturing culture
- Project lead time slashed

About this Program

The **only way to change anything for the better is by doing** and hence this program believes in “**Learning by Doing**”. The participants are expected to apply their classroom learning by diagnosing current problem areas in their organization and making a roadmap for improvement. The course is therefore split into two one day sessions with a two week gap in between to facilitate practical implementation.

Day One	Day Two
About Lean, Current state assessment tools VSM, Material Flow Diagram, OEE etc	Diagnosis of problems & constraint areas, Kaizen philosophy, Drawing up a roadmap for Improvement

KIAPs vastly experienced lean experts will guide the participants in completing the assessment and roadmap and will make one visit to their organizations in between the two sessions to facilitate this.

Program Lead Faculty

Ganesh Mahadevan, a Metallurgical Engineer (IIT-B) and MBA in Operations (NITT), is a Director in KIAP. An eight year stint in Hindalco & Pyrotek was followed by four years in the Management Consulting Services of Deloitte. Since 2007 he is with KIAP, focussing on Operations Excellence, through Kaizen and Lean across varied industry sectors. He has also lead cluster Lean implementations in three clusters of engineering MSMEs (total of 30 units) in Coimbatore under the NMCP program in which two units were given National Award for Best Lean Implementation. He also pioneered the implementation of Lean concepts in the bulk drug sector in Hyderabad through GTZ-SIDBI's cluster scheme.

Other KIAP experts may also take sessions and guide in the assessment visits.

Program Fees and Registration

The program is of two weeks duration and comprises two days of class room sessions and one visit to the participant organizations. **The fees payable is Rs.10, 000/- + Service Tax** extra as per prevailing rates.
